

## David Leyden Bsc.Arch, B.Arch, M.R.I.A.I., Dip.Arb.

Director at LHA Architecture, RIAI Alternative Dispute Resolution panelist and RIAI registered architect with eighteen years national and international experience working on diverse project types ranging from large urban regeneration and high-rise residential projects to single room domestic extensions and component design.

Extensive experience working within teams acting as employer's representative, architect, design team leader, PSDP and Assigned Certifier for the design and delivery of varied projects types through all phases from inception, brief development, design, statutory approvals, coordination of production packages, management of procurement and contractor appointment, contract administration, final account and certification. Project range includes domestic, residential, commercial and educational.

Post graduate diploma in arbitration received from UCD School of Law and active member of the RIAI's ADR panel with detailed working knowledge of construction law and contract administration.

Administration skills extend to marketing, resource management, quality control, innovation, implementation of operational structures, training, statutory compliances, invoicing, accounts and general office administration.
